

Chris - Good luck having baby #2 Friday! Keep me posted!

LOST Season 5 Episode 14
The Variable

Title - Daniel says he was too busy looking at the constants to consider the variables when it came to time traveling. He thought there may be a way to change the future. He didn't change anything.

1. Just to make sure we are all clear... Daniel was killed before he was born by his mother who hadn't given birth to him yet.

So there.

2. This is the 100th episode of Lost. You have spent at least 4 days of your life watching this show. (Unless you have seen some episodes twice...)

3. Once again, just to clarify... Eloise is Daniel's mother. Widmore is Daniel's father. Penny is Daniel's half sister which would make him little Charlie's uncle and Desmond's Brother in law. We good? Excellent.

4. Just a picture of Hostile-Town.

5. Such irony when young Daniel says he can "make time" to play the piano AND study time travelling math-ish stuff.

6. Eloise and Widmore tell Daniel that the island will cure him. They both knew it would kill him. This was obviously before the 'Time Out' punishment was invented. Keep in mind that these were the days when parents would send naughty children through time to crazy monster filled islands and what not.

7. Sawyer called Daniel H.G. Wells. H.G. Wells wrote 'The Invisible Man, The Shape of Things to Come (a Lost episode title) and of course, "The Time Machine."

8. Hurley is freakin' HUUUUUUUUUGGGGGGGGGGGEEEEEEEE.

9. When Widmore stops by Faraday's house, he moves a copy of Wired Magazine. The cover had stories about 'Super Powers' including X-Ray vision, time travel and invisibility.

10. We are getting closer to the season finale and they are building us up to finally getting to see "The Incident"

The Incident is the name of the season finale, so I am assuming we get to see it. Daniel must have known all about it as he says the the "Incident Room" had concrete poured all over it like they did in Chernobyl. I wonder if it has anything to do with the H-Bomb ?

11. Here's why you read these things... Creepy fun moment of the week...

Cute Charlotte on a Swingset tells scary Faraday, "I'm not allowed to eat chocolate before dinner." Daniel says he won't tell.

Think now... Charlotte's last words? When she was all talking crazy ? Yup. "I'm not allowed to eat chocolate before dinner."

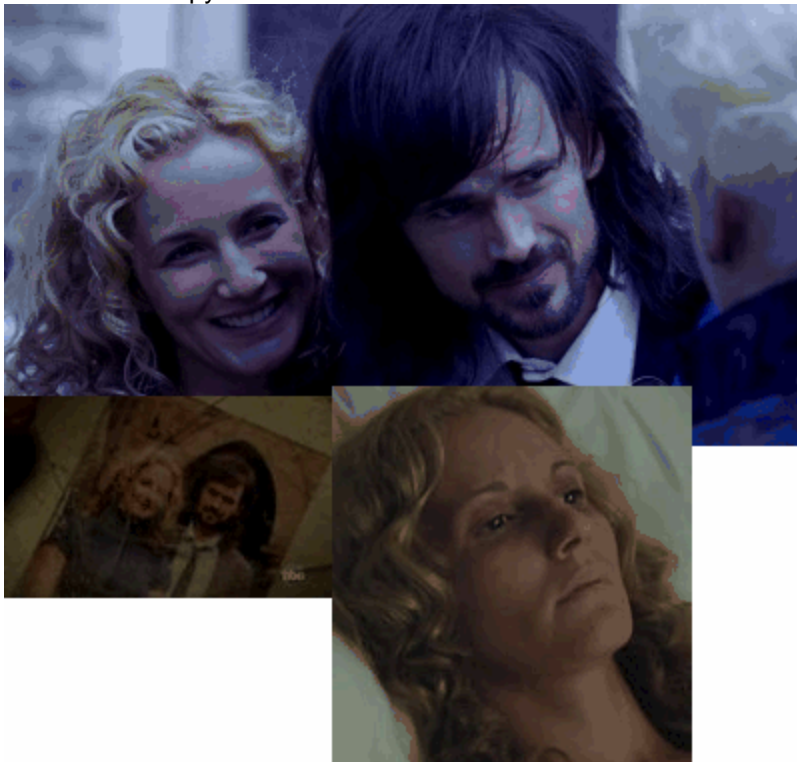

TA DAH ! Thank you very much!

12. Widmore finally admits to us watchers that he was the one who faked the Oceanic 815 crash. (But we knew that.)

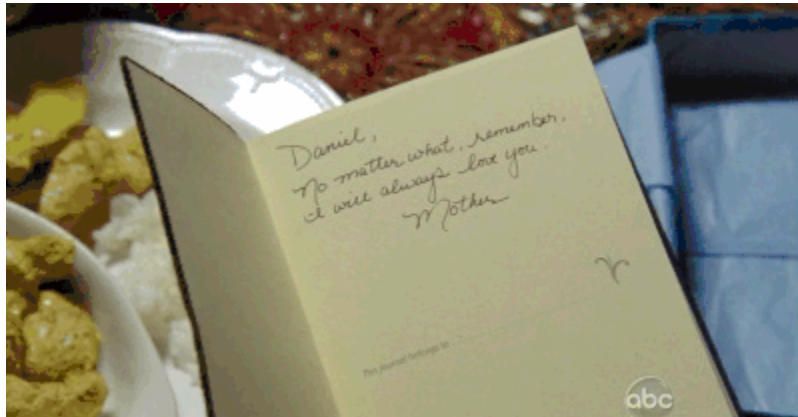

13. Theresa is Faraday's lady friend. If you will recall the episode 'Jughead' we get to see Theresa as she slips in and out of time periods in her bed. All sick and yucky. Faraday says that he did experiments on himself before Theresa which may be why he was a bit loopy and needed the island to cure him.

14. And an obvious one to end it. The present from Eloise on her son's graduation day is the journal that we always see him with now.

"Daniel, No matter what, remember, I will always love you. Mother. (Even when I soot and kill you.)

Sawyer Nicknames:

Faraday : HG Wells & Twitchy

Kate is Freckles again. My wife says that Sawyer shouldn't have said that in front of Juliet. Bad Sawyer?

Best Line:

When Hurley found out that Sawyer and pals time travelled to the 50's, he said 'You mean, like, Fonzie times?'
